

# Democracy Begins At Home

I  
am the  
face of the  
Democracy Project  
of the Gill Foundation.  
I have successfully completed  
the Freedom File Workshop. I have  
learned how to use the enhanced list of my  
organization. I am committed to harnessing its  
potential to increase fund-raising, leadership devel-  
opment, and participation in the democratic process. I am  
dedicated to building a future with equality and justice, in the  
world and in my state. I have imagined innovative and creative ways  
to collaborate with allies old and new. I believe that better lists are powerful  
tools. My participation helped create this tool, and I can help others learn to use it.  
I am one partner in a strong, diverse, and growing movement. I am part of the solution.
